

Pension Assurance is a Single-Service CPA Firm With One Service Offering: **ERISA** Retirement Plan Audits

The Vision for Creating Pension Assurance

came from recognizing that ERISA plan audits are typically just one of many service offerings within full-service accounting firms. This lack of dedicated focus shows up in problems with client service and audit quality throughout the industry.

Pension Assurance is becoming the go-to firm for retirement plan audits. As plans are subjected to ever greater regulatory scrutiny, the value of a firm like Pension

Assurance has never been greater. We bring top-shelf expertise at highly competitive fee levels.

Today, plan sponsors are beginning to recognize this value. In 2024, we were one of the fastest growing ERISA plan audit practices in the country, auditing about 950 plans, constituting \$25 billion in plan assets and over 543,000 participant accounts. Time and again, our focused, proven approach has clients and their service providers consistently praising our team and audit process.
